

## **Taconic Rodent Model Questionnaire**

Thank you for contacting Taconic to discuss your rodent model. Please fill out this form in order to help us evaluate this model as a potential commercial offering. Return the completed form to your local Taconic representative.

Model: [name and type of model, background strain]

- also called [other names used for the rodent model]

Developer: [investigator, institution]

Methodology: [how model was made: diet, chemicals, gene editing, ES cell line, etc]

Intellectual Property: Was any third party IP used in generation of this model? Do you have full rights to license this model and all IP for commercialization?

Development: [what has been done since initial publication to develop or improve the model]

Reproductive info: [how are animals bred: het x het, homo x homo, het x wild, etc? What is average litter size? Frequent lost litters or missing newborn? Any other notable info.]

Genetic analysis: [types of assays used and results if any]

Publications: [detail original publication describing the model; other publications using the model; any from outside labs]

Model requests: [number of requests and how many animals requested; types of institutions (academia, pharmaceutical, government); MTA used (provide copy)]

Phenotype: [any information available on gene alteration and phenotype; longevity; breeding; any other traits that would affect commercial production of model]

Research applications: [how the model is used: drug discovery, basic research, what areas of research, etc.]

Comparison to existing models: [how is this model better than others already available in the market]
